GlenWyvis Newsletter February 2016

Welcome

We would like to extend a warm Highland welcome to our followers both old and new. As the days begin to stretch and we move further into 2016 the pace of work is speeding up. Our investment date of the 16th of April is getting closer so be sure not to miss out on your chance to own your piece of a Highland distillery as we expect the limited shares will sell out very quickly. You can register your interest in investing at info@glenwyvis.com.

CUMHACHD AN UISGE/The Power of Water

February saw some extreme weather grip the Highlands with several storms battering the North and West in quick succession. The power of nature was clear to see but here at GlenWyvis it is that very power we rely on. Our most expensive Energy system is our Hydro scheme and with all the excess water the storms brought it was running at full capacity. After extensive research which included visiting Scotland's first hydro on the island of Rum the farm hydro was commissioned in December 2010. The Rum hydro is very similar and still running successfully-we hope ours will last well beyond the 70years Rum has already managed. GlenWyvis powered by nature.

Aberdeen University Malt Whisky Festival

On the 12th of February Craig was in attendance at the Aberdeen University Malt whisky festival. It was run by the universities malt whisky society and attracted whisky enthusiasts from all over the North East of Scotland. Craig was giving samples of our award winning gin as well as our Burns Nectar Highland malt whisky to everyone who was interested. As well as showcasing our unique products Craig was delivering the GlenWyvis message of a community owned whisky distillery to an enthusiastic public. We were very grateful for the fantastic response we got from the people of the Granite City who support what we are trying to achieve.

Trip to Culloden Battlefield

On the way back North after meeting the whisky and gin enthusiasts of Aberdeen Craig paid a visit to one of the places that holds huge significance in Highland history, Culloden Battlefield. On the 16th of April 1746 the Jacobites faced off against the forces of the British government. The bloody battle that ensued lasted less than an hour but as the smoke settled almost 2000 Highland clansmen lay dead and along with them the Jacobite cause. We will be launching our investment on the 16th of April 2016, exactly 270 years after the infamous battle, we aim to bring traditional Highland distilling back to its independent community roots, we think the Jacobites would be proud! GlenWyvis built on history.

GlenWyvis Build Warrant

In a major step forward for us we are happy to announce that our build warrant has been submitted and we have attached some designs that have been put together by local architects, Reynolds Architecture, to illustrate what Scotland's newest whisky distillery will look like.

GlenWyvis Ceilidh

We are very proud to be sponsoring a fund raising ceilidh for the Strathpeffer Pipe band. If you feel like a wee hoolie then come down to Marybank hall on the 2nd of April, with music from the brilliant local band Torridon and the Strathpeffer pipe band themselves. There will also be a chance to try our award winning GlenWyvis gin at the licensed bar. As many of you know our local community is very important to everyone associated with GlenWyvis and many other community groups and schemes will see the benefit of a community owned distillery in the years to come.

FUNDRAISING DANCE
with
TORRIDON

Saturday 2nd April 2016
Marybank Hall
